WARNING Never put fingers or objects except tobacco in the chamber that could result in serious injury.

WARNING Never put your face or eyes in front of the pushing rod. Keeps a security working space around the machine.

CAUTION It is HIGHLY recommended to use dry tobacco to avoid deposits and forcing the mechanism.
Slightly dried tobacco will make perfect cigarettes. Never put too much tobacco in the chamber. Begin with less tobacco for the first use.

OPERATING INSTRUCTION

1. Insert the connector pin (10) into the appropriate hole on the side, then plug the adapter (8) into the power source. Push the 'ON/OFF' button (7) in 'ON' position. Place the handle (3) in raised position.
2. Slide tube (1) on nozzle (13). Put slightly dry tobacco into the reservoir (5) and fill the chamber (2).
3. Do not pack too tight. Start first cigarettes with a small quantity of tobacco.
   Lower completely the handle (3) for activate the mechanism.
4. After making your cigarettes, lower completly the handle (3) and push the 'ON/OFF' button (7) in 'OFF' position for storage.
5. If needed, the tightening of the tube onto the nozzle may be adjusted if the tube tears at the ejection or if the tube is ejected without be completely filled. Use a screwdriver to slightly loosen or tight the segment of the nozzle (see hole under the machine near the nozzle) and retry.
